During the months of March and April 2014, there were two temporary transfers of in-state funds that occurred for use in the General Fund to address the cyclical nature of cash availability. These transfers were authorized with the stipulation that all funds would be transferred back to their original fund source prior to the end of this fiscal year. Through April 30, 2014, all money was returned to the original fund source.

Note that the schedule above represents net tax and non-tax collections and not gross collections. Tax revenues are presented net of refunds to taxpayers and various distributions to state and local entities based on legislation. A negative appropriation expenditure indicates that a budget code has actual receipts that exceed actual expenditures.

The schedule above presents monthly and year-to-date General Fund operations for the current and prior fiscal years as well as the annual budget and percent of budget realized or expended.

The table above presents monthly and year-to-date tax and non-tax revenues as well as the increase/decrease from the prior year.

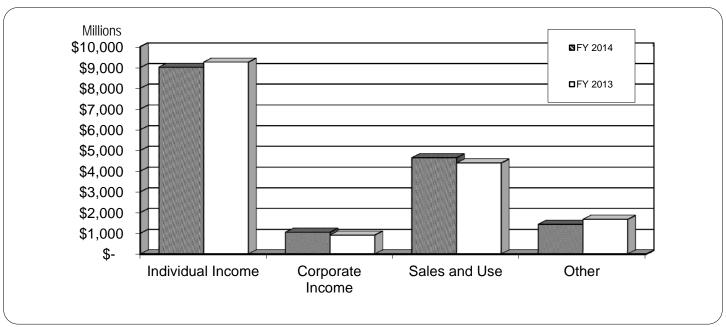

For fiscal year 2014, when compared to the prior year through April 30, actual net tax and non-tax revenues decreased by \$112.8 million, or 0.7%. Tax revenues through April 2014 decreased by \$94.8 million, or 0.6%, and non-tax revenues decreased by \$18.0 million, or 2.0%.

Disproportionate Share showed an increase when compared to the prior year. This increase is due to the timing of the transfer and availability of funds. In the prior year, transfers occurred in the second and third quarter. The Highway Trust Fund Transfer-In showed a decrease when compared to the prior year. G.S. §105-187.9, Disposition of tax proceeds to the General Fund, was repealed effective July 1, 2013, which equals a total decrease of \$27.6 million or \$6.9 million per quarter. Other Non-Tax Revenue showed a decrease when compared to the prior year. In fiscal year 2013, there was a one-time transfer of \$45 million from the One North Carolina Fund with the Department of Commerce to the General Fund. For fiscal years 2009 through 2013, legislation authorized quarterly transfers from the Public School Building Capital Fund to offset the continued operations of the State's public schools. For the fiscal year 2014, no quarterly transfers from the Public School Building Capital Fund to the General Fund were authorized; therefore, there was a decrease of \$73.5 million when compared to the prior year.

Revenues and expenditures never occur evenly over the course of the fiscal year. During fiscal year 2014, the State continues to implement a cash flow management process that monitors state agency spending requirements. At April 30, 2014, not all refunds processed had been disbursed. Processed refunds pending amounted to \$225 million.
