The North Carolina Supreme Court ruled in the Bailey case on Friday, May 8, 1998. On June 9, 1998 representatives of the State and the various retirees involved in the Bailey and Patton cases announced a settlement in the amount of \$799 million, pending final court approval. Of this amount, \$400 million will be paid in refunds in fiscal year 1998-99, and \$399 million will be paid in refunds during fiscal year 1999-2000.

Bailey Case — State Tax Refunds - State Retirees. State and local government retirees filed a class action suit in 1990 as a result of the repeal of the income tax exemption for state and local government retirement benefits. The original suit was dismissed after the North Carolina Supreme Court ruled in 1991 that the plaintiffs had failed to comply with state law requirements for challenging unconstitutional taxes and the United States Supreme Court denied review. In 1992, many of the same plaintiffs filed a new lawsuit alleging essentially the same claims, including breach of contract, unconstitutional impairment of contract rights by the State in taxing benefits that were allegedly promised to be tax exempt and violation of several state constitutional provisions. The case was tried and decided in plaintiffs favor in Superior Court in the summer of 1995. The State appealed and arguments were heard in the Supreme Court of North Carolina in September, 1996.

Patton Case — State Tax Refunds - Federal Retirees.
On May 23, 1995, retired federal employees sued for refund of income taxes paid upon pension income for tax years 1989 through 1993. They alleged that the incremental pension increases granted state retirees since 1989 unconstitutionally discriminate against them.

August 31, 1998

Tax revenues through August 1998 were greater than the period through August 1997 tax revenues by \$179.0 million, or 12.9%. Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are difficult due to legislative changes and netting of various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

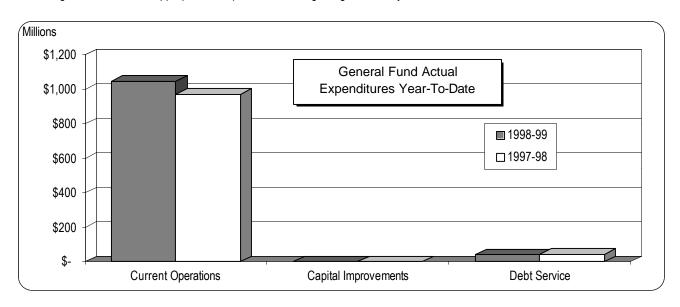

Non-tax revenue through the end of August 1998 was \$6.4 million or 2.7% greater than through the end of August 1997. Investment earnings increased through August over the previous year by \$5.7 million, or a 14.5% increase.

August 31, 1998

Expenditures

Actual appropriation expenditures through August 31, 1998, exclusive of appropriation expenditures for capital improvements funded by bond proceeds, were greater than actual appropriation expenditures through August 1997 by \$73.9 million, or 7.3%.

Expenditures for current operations (exclusive of expenditures for capital improvements and debt service) through August 1998 were greater than such expenditures through August 1997 by \$75.9 million, or 7.8%.

General Obligation Debt - General Fund and Highway Fund

The following schedule presents principal payment requirements for the General Fund and the Highway Fund. This schedule is exclusive of defeased debt involving advance refundings where the proceeds were placed in an irrevocable trust with an escrow agent in an amount sufficient to provide for all future debt service payments on the refunded bonds.

In November 1996, the voters of North Carolina approved bonds in the amount of \$1.8 billion for school construction and \$950 million for highway construction. The amount of authorized, but unissued bonds was \$1.6 billion as of August 31, 1998.

The first bond issue related to the \$1.8 billion of school construction bonds which were approved in November 1996 was issued on March 1, 1997 in the amount of \$450 million. These bonds were issued at rates ranging from 5.1% to 5.2% with a final maturity of March 1, 2016.

The second bond issue related to the \$1.8 billion of school construction bonds which were approved in November 1996 was issued April 1, 1998 in the amount of \$450 million. These bonds were issued at rates ranging from 4.75% to 5.0% with a final maturity of April 1, 2016.

The first bond issue related to highway construction was issued on November 1, 1997 in the amount of \$250 million, with rates ranging from 4.5% to 5.00%. The proceeds of this bond issue will be used to pay the capital costs of urban loops, intrastate system projects, and State secondary road projects.

The adjacent schedule includes only bonds issued through August 31, 1998.
