Smith v. State – Intangibles tax refunds to non-protesting taxpayers. On February 21, 1996, the U.S. Supreme Court declared North Carolina’s intangibles tax unconstitutional. Subsequently, the State made refunds of intangible taxes paid by all persons who had complied with the provisions of G.S. 105-267, Taxes to be paid; suits for recovery of taxes, for obtaining refunds of unconstitutional taxes. The Smith case is an action aimed principally at recovering intangibles tax refunds for taxpayers who failed to comply with the provisions of G.S. 105-267. On December 4, 1998, the Supreme Court ruled that North Carolina will have to pay refunds to non-protesters who paid intangibles taxes. This case was consolidated with Shaver v. State, another action for refund of intangibles tax paid on shares of stock. The consolidated case was settled and the agreement required the State to pay \$440 million into a settlement fund in two installments, \$200 million by October 1, 1999, and \$240 million by July 10, 2000.

Note that the table represents net tax and non-tax collections and not gross collections. When compared to the prior year through December 31, actual tax and non-tax revenues increased by \$157.0 million, or 2.5%.

The net, or actual, tax and non-tax revenues through December 2000 of \$6,440.3 million were less than the projected revenues by \$366.8 million. Payment on certain fiscal year 1999-00 income tax refund obligations did not occur until fiscal year 2000-01, and were made from fiscal year 2000-01 funds. These income tax refund obligations consisted of approximately \$100 million of individual income tax refunds deferred for payment to fiscal year 2000-01 due to processing delays, and \$20 million in corporate income tax refunds delayed to balance the General Fund budget on a cash basis. Projections for individual income and corporate income tax were not adjusted for this carryforward. Franchise tax payments of \$92 million originally credited to corporate income tax collections in March 2000 were properly allocated to franchise tax in October based on the final tax return filed by the corporation. Budgetary projections for franchise and corporate income tax have been adjusted for this reallocation.

Major components of tax and non-tax revenues that increased from the prior year through the end of December 2000 included:

- \$258.0 million for Individual Income Tax;
- \$105.6 million for Franchise Tax; and
- \$51.1 million for Sales and Use Tax.

SUMMARY OF FINANCIAL CONDITION

December 31, 2000

Tax revenues through December 2000 were greater than the period through December 1999 by \$130.9 million, or 2.3%. Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are difficult due to legislative changes and netting of various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

Non-tax revenue through the end of December 2000 was \$26.1 million greater, or 5.1% greater, than through the end of December 1999. Investment revenues decreased by \$21.1 million as total General fund balance declined by \$719.4 million.
