#### **Exclusion Prompts**

Exclusion prompts also are indicated with a green check mark ( $\checkmark$ ) but are generally prefilled with a specific set of data values. They are provided as a way to exclude specified data by default while allowing customers the flexibility of changing them when necessary. Any rows containing data values listed in the exclusion selection box will not be fetched into the report.

By default, these exclusion prompts ensure that the report does not contain any temporary employee data. The data values contained in the selection box can be modified or cleared completely as needed. To include temporary employees in the report, clear the employee group and employee subgroup from the selected values from the prompts.

- ✓ **Exclude Employee Groups (Temps) O, X** To remove this exclusion,
  - Make sure the "Exclude Employee Group" prompt is selected (1)
  - Click on O and X in the selection box (2).
  - Click on the left arrow (3).
