

# CHANGE WORK SCHEDULE RULES VIA PA30

PA

JOB AID PER-4 | TRANSACTION CODE IT0007

The purpose of this job aid is to explain how to change a work schedule rule. To change a work schedule rule on an individual, you will process the change via transaction code [PA30]. Always use COPY to keep a record of the historical work schedules. This process is used only if an action isn't required for the change.

The work schedule:

- Is required for all employee records;
- Defines the expected daily work hours;
- Defines the number of expected work days used to determine when an employee will accrue leave in that month;
- Is used to limit leave usage;
- Does not limit work hours that can be recorded;
- Can drive Shift Premiums for eligible employees; and
- Is tied to a Holiday Calendar.

The screenshot shows the 'Maintain HR Master Data' application interface. The 'Personnel no.' field contains '80001261'. The 'Name' field contains 'Jimmy Smith19'. The 'EEGroup' is 'A' (SPA Employees) and 'EESubgroup' is 'A1' (FT N-FLSAOT Perm). The 'PersA' is '4601' (Cultural Resources) and 'CostC' is '4627500000' (GRAVEYARD OF TH...). The 'Basic Personal Data' tab is selected. In the 'Infotype text' list, 'Planned Working Time' is highlighted with a red box. The 'Period' section shows 'From 01/01/1800 To 12/31/9999' and 'All' is selected. The 'Direct selection' section shows 'Infotype' as 'Planned Working Time' and 'STy' as an empty field. The 'Copy' button in the top toolbar is also highlighted with a red box.

1. Highlight **Planned Working Time** or Enter **0007** in Infotype.
2. Click the **Copy**  button.

3. Enter the **Start date**.
4. Choose appropriate work schedule. Review Time Mgmt status, Working week and Weekly working hours for correctness.
5. Click the **Enter**  button.
6. Click the **Save (Ctrl+S)**  button.

**NOTE:** Employment percentage must be 100%. The weekly working hours must coincide with the work schedule rule and the employee subgroup. Part-time box should be checked if applicable.

### Possible subsequent activities

“Click **Cancel** , since you will not be changing benefits in this transaction.”

**NOTES:**

- 1) Subject employees – MUST be positive time.
- 2) The work schedule should be changed at the beginning of an overtime period (7 day, 28 day, etc.) if at all possible.
- 3) From the drop menu you will see the list of valid work schedules for this individual only.
- 4) Not all schedules are permitted by all Agencies.
- 5) An employee can see their work schedule assignment on the upper right-hand corner of the Time Statement.
- 6) Employees assigned to a night shift will earn night premium for hours recorded on their SCHEDULED work days. Time worked on NON-SCHEDULED work days require a substitution or a push code if the work time is premium relevant.

**Rotating Schedules** – common in 24/7 operations

- Employees on Rotating schedules must be assigned with care. In addition to identifying the rotation schedule to which they belong, it must also be determined where they are within that rotation to match up work days/off days.

**Flex Schedules** - allows employees to record any number of work hours or leave hours on any day of the week

- May be a 4, 8, 9, 10 or 24-hour flex schedule
- Anyone with a regular recurring work pattern should be assigned to a specific work schedule that reflects the normal expected work hours per day per OSHR. Flex schedules may invite some work hour flexibility that may benefit the employee but impede business operations.

**NOTE:** When employees are moved from Temp to Perm and vice versa, the work schedule rule may be modified by BEST PA in order to pay employee correctly. Agencies should consult with BEST PA before attempting to change this record.
