Note that the table represents net tax and non-tax collections and not gross collections. When compared to the prior year through April 30, actual tax and non-tax revenues increased by \$856.9 million, or 7.7%. The net, or actual, tax and non-tax revenues through April 2003 of \$11,959.9 million were less than the projected revenues by \$136.9 million.

\$95.1 million for inventories reimbursement to local governments, not previously paid in April 2002, was repaid in July 2002 from the Governor Easley escrow fund (Executive Order #3). For fiscal year 2002-03, the local government tax reimbursement has been repealed. In addition, no funds will be transferred from corporate income tax to the Critical School Facility Needs Fund or the Public School Building Capital Fund. Instead these funds will be deposited as a receipt for use in the State Public School Fund (*part of the General Fund*). This receipt indirectly increases available dollars to be appropriated for other uses. In 2001-02, these transfers which were netted against corporate income tax, totaled \$238.7 million (see table on following page).

Major components of tax and non-tax revenues that increased from the prior year through the end of April 2003 included:

- \$222.0 million for Sales and Use Tax;
- \$407.8 million for Corporate Income Tax; and
- \$15.5 million for Individual Income Tax.

The largest portion of the increase in corporate income tax is due to the fiscal year 2003 repeal of reimbursements to local governments. These reimbursements from corporate income tax were \$101.5 million through March 2002. The largest portion of the increase in individual income tax is also due to the fiscal year 2003 repeal of reimbursements to local governments. These reimbursements from individual income tax were \$129 million through March 2002.

SUMMARY OF FINANCIAL CONDITION

April 30, 2003

Tax revenues through April 2003 were greater than the period through April 2002 by \$681.8 million, or 6.5%. Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are difficult due to legislative changes and netting of various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

Non-tax revenue through the end of April 2003 was \$175.1 million, or 27.4%, more than through the end of March 2002. Effective with the 2002-03 fiscal year, the Highway Trust Fund Transfer In will occur on a quarterly rather than annual basis. In 2001-02, the Highway Trust Fund transferred \$171.7 million annually. In 2002-03, \$377.4 million (including a \$125 million loan from the Highway Trust Fund) will be transferred over four quarterly installments of approximately \$94.4 million. Investment revenues decreased by \$22.9 million from the prior year through the end of April 2003.

**Expenditures**

Actual appropriation expenditures through April 30, 2003, were greater than actual appropriation expenditures through April 2002 by \$89.8 million, or .8%.

Expenditures for current operations (exclusive of expenditures for capital improvements and debt service) through April 2003 were greater than such expenditures through April 2002 by \$77.4 million, or .7%.
