## Summary of Financial Condition

November 30, 2005

Tax revenues through November 2005 were more than the period through November 2004 by $\$ 506.1$ million, or $8.7 \%$. Tax revenues are presented net of refunds to taxpayers and various transfers. Comparisons of current and prior year tax revenues are difficult due to legislative changes and netting of various transfer expenditures against the tax revenue sources. Examples of such transfers include:

- reimbursements to local governments;
- reimbursements for costs of administration of sales and use tax for local governments; and
- transfers to the Public School Building Capital Fund and Critical School Facility Needs Fund.

Non-tax revenue through the end of November 2005 was $\$ 84.1$ million, or $23.0 \%$, less than through the end of November 2004. The decrease in non-tax revenue is due to a delay in disproportionate share funds received on December 22, 2005 in the amount of $\$ 91.2$ million. Investment revenues increased by $\$ 16.3$ million from the prior year through the end of November.
